

Thunderbird - SSL warnings

(Mail Hosting: NTT Communications (Thailand) Co., Ltd.)

SSL Certificate Warnings you may see in Thunderbird when setting up email through SSL.

In the Mail Account Setup warning,

1. Click the box beside "**I understand the risks**" > click the "**Create Account**" button
2. In the **Add Security Exception** window > Click on **view certificate and confirm the security exception**.

If you have any questions or concern ...

Please take note of any error messages and contact support-mail team as soon as possible.
