

Thunderbird - Timeout

(Mail Hosting: NTT Communications (Thailand) Co., Ltd.)

Sending email doesn't go through, so you're forced to cancel the sending.

- If you have chosen no SSL in your settings, make sure your outgoing port is set to 587.
- If you have chosen SSL in your settings, make sure your outgoing port is set to 465.

The above error is caused by a mismatch between ports and SSL/non-SSL settings.

If you have any questions or concern ...

Please take note of any error messages and contact support-mail team as soon as possible.
