

Outlook Error 0x800CCC0B

(Mail Hosting: NTT Communications (Thailand) Co., Ltd.)

- Connection with email server or network is not established or lost.
- Account setting configured incorrectly.
- Damaged email on POP3 server.
- Damaged user profile in Microsoft Outlook.
- Antivirus software including antivirus plugin are incorrect.
- Firewall configuration is inaccurate.
- Installed Norton Antivirus, McAfee or another antivirus with enabled function Scan incoming Email and Scan outgoing Email.

We suggest user to check email account profile of Microsoft Outlook. Preferably, created a new profile in Microsoft Outlook because of window system and Microsoft Outlook PST file are not working properly.

If you have any questions or concern ...

Please take note of any error messages and contact support-mail team as soon as possible.
